14 400	1-8x24	L4A Dot	\$449
14 401	1-8x24	Circle Dot (8x)	\$449
14 402	1-8x24	Tactical BDC - 5.56	\$449
14 279	3-9x42	L4A Dot	\$319

L4A DOT

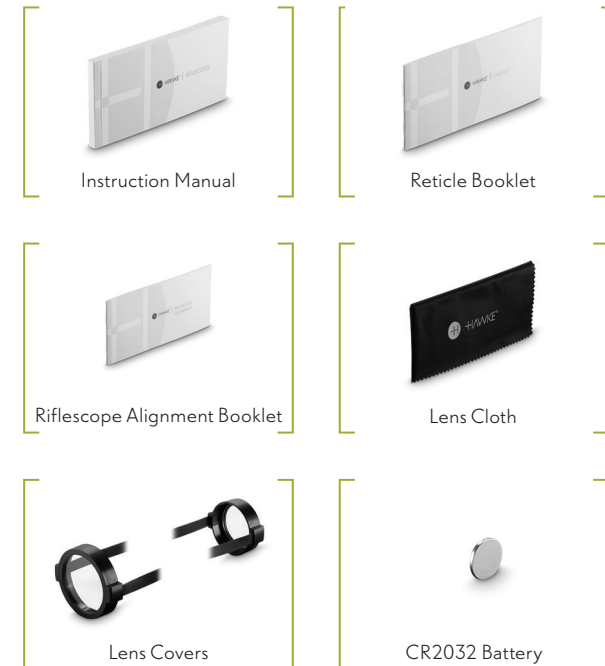

CIRCLE DOT (8x)

TACTICAL BDC - 5.56

The L4A Dot and Circle Dot reticles give a clean and uninterrupted view of your target, while the new Tactical BDC - 5.56 reticle gives uncompromisingly detailed accuracy for your 5.56 NATO ammunition AR-pattern rifles and pistols. The glass-etched BDC (bullet drop compensating) reticle features an illuminated center dot and horseshoe for fast target acquisition, and windage markers for enhanced accuracy.
